

BioLink FingerPass EX

Rugged and Waterproof Fingerprint Access Control Terminal

BioLink FingerPass EX is an innovative rugged biometric fingerprint terminal for access control and time attendance management, offering unparalleled performance using an advanced algorithm for reliability, precision and excellent matching speed.

BioLink FingerPass EX can be used as a standalone device or with network access control or time and attendance systems.

Key features:

- Optical fingerprint reader with 500dpi
- 1 touch a-second user recognition
- Stores 1,500 templates and 10,000 cards
- Multifactor identification
- Built-in Serial and Ethernet ports
- Tamper-proofs switch and alarm outputs
- Request-to-exit and alarm contacts
- Audio-Visual indications for acceptance and rejection

Specifications

Fingerprint Capacity

1500 templates

ID card Capacity

10,000

Transaction Capacity

100,000

Communication

RS485, TCP/IP, USB-host

Access Control Interface

3rd party electric lock, door sensor, exit button, alarm

Optional Functions

Mifare, external USB keypad

Power Supply

12V DC

Operating Temperature

-10 °C- 60 °C

Operating Humidity

10%-90%
